Round 3" Stainless Steel Pipe Reducer Fittings Raised Face With Finish To Mss Sp6

Our Product Introduction

for more products please visit us on stainless-steelseamlesspipe.com

Basic Information

- Place of Origin: CHINA
- Brand Name: zheheng
- Certification: ISO9001 PED
- Model Number: 60mm
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: In bundles with waterproof material, or wooden crate packing
- Delivery Time: 30 DAYS
- Payment Terms: L/C, T/T, D/A, D/P
- Supply Ability: 50TONS/30DAYS

Product Specification

- Material: Stainless Steel Forged Socket Welding Pipe Flange
- Standard: ASME B16.5
- Type: FF
- Technique: Forging
- Size: 3"
- Name: Socket Welding Flange
- Highlight: **slip on pipe flanges,
stainless steel pipe flange fittings**

Product Description

stainless steel forged socket welding pipe flange ASME B16.5 RAISED FACE(S) WITH FINISH TO MSS SP6

Socket Weld Flange

A Socket Weld Flange is similar to slip on flanges, however, socket welds have an internal recess on the inside diameter to allow for a smoother flow of the process fluid. The positive of this is that it creates a smooth bore with the proper welding and grinding. The negative of this type of flange is that it can be more expensive than a slip-on due to more intricate machining, and they can be less readily available than slip-ons due to the fact that the

bottom half of the inside diameter must be made to the same schedule as the pipe that is being used (you must specify the schedule needed)

These socket weld flanges were initially developed for use on smaller sizes of pipe at higher pressure ratings.

Product Type:

Weld Neck Flange, Slip On Flange, Socket Welding Flange, Lap Joint Flange, Threaded Flange, Blind Flange/Blind, Orifice Flange, Integral Pipe Flange, Reducing Flange, Pad Type Flange, Loose Hubbed Flange, Welding Plate Flange, Weldoflange, Nipoflange, Welding Neck Collar, Welding-on Collar

And we have ASME B16.5 SS 304 Forged Flanges, Blind Flange Distributor, ANSI B16.5 SS 304 Plate Flanges, SS 304 Plate Flange Dealer, ASME SA182 SS 304 Orifice Flanges, Stainless Steel 304 Threaded Flange PP bag or soft white paper for individual packing, then put into wooden case or carton, Pallet is available if customer request.

Socket Weld Flange	A Socket Weld Flange is similar to slip on flanges, however, socket welds have
	an internal recess on the inside diameter to allow for a smoother flow of the
	process fluid. The positive of this is that it creates a smooth bore with the
	proper welding and grinding. The negative of this type of flange is that it can
	be more expensive than a slip-on due to more intricate machining, and they can be less readily available than slip-ons due to the fact that the
	bottom half of the inside diameter must be made to the same schedule as the pipe that is being used (you must specify the schedule needed)
	These socket weld flanges were initially developed for use on smaller sizes
Size	of pipe at higher pressure ratings.
Pressure	Plate flange: 1/4"-160"
	DN8-DN4000
	America Series: Class 150, Class 300, Class 600, Class 900A,
	Class 1500, Class 2500.
Flange Facing Types	Europe Series: PN2.5, PN6, PN10, PN16, PN25, PN40, PN63, PN100,
	PN160, PN250, PN320, PN400.
	America Series: Flat face (FF), Raised face (RF), Tongue (T), Groove (G),
	Female (F), Male (M), Ring type joints face (RJ/RTJ)
Material	Europe Series: Type A (Flat Face), Type B (Raised Face), Type
	C (Tongue), Type D (Groove), Type E (Spigot), Type F (Recess), Type G (O-Ring Spigot), Type H (O-Ring Groove)
	Carbon steel: ASTM A105, ASTM A105N, GB 20, C22.8.
	Alloy steel: ASTM/ASME A234 WP 1-WP 12-WP 11-WP 22-WP 5-WP 91-WP 911
	Stainless steel: ASTM/ASME A403 WP 304-304L-304H-304LN-304N
