Product Description

Cold Draw Stainless Steel Seamless Pipe 1.4301 1.4306 1.4435 1.4436 1.4401

zheheng steel is approved by zhejiang government to carry out import and export trading company. Is located in the beautiful coast of the wenzhou, distribution and high quality steel products for export. Operating varieties include all kinds of stainless steel seamless pipe, plate, wire rod, pipe fittings and other series products.

For more than sixty years, architects have used stainless steel seamless pipe to build cost-effective permanent buildings. Many existing buildings fully illustrate the correctness of this choice. Some are very entertaining, such as the Chrysler Building in New York City. But in many other applications, the role of stainless steel seamless pipe is not so compelling, but it plays an important role in the aesthetics and performance of buildings. For example, since stainless steel is more wear resistant and indentation resistant than other metal materials of the same thickness, it is the material of choice for designers when constructing sidewalks in places with large population movements.
