310s X8CrNi25-211.4841 15mm Cold Drawn Seamless Steel Tube 10/12 Inch ASTM 314

Our Product Introduction

Basic Information

- Place of Origin: China JAPAN, THAILAND, UK, USA
- Brand Name: zheheng
- Certification: ABS, GL, DNV, NK, PED
- Model Number: 310s
- Minimum Order Quantity: 100
- Price: Negotiable
- Packaging Details: standard seaworthy pacage
- Delivery Time: 5 days
- Payment Terms: T/T, L/C
- Supply Ability: 1000+

Product Specification

- Length: As Required
- Surface: Polished
- Type: Smells
- Finish: Cold Drawn
- Shape: Round, Tube
- Thickness: 0.4-30mm 1.0mm
- Highlight: **304 stainless steel seamless tubing**, **ss seamless pipe**

Product Description

310s X8CrNi25-211.4841 15mm 10/12 inch ASTM 312

Zheheng Steel is a manufacturer specializing in the production of stainless steel 310s stainless steel seamless pipes. After years of development, we are able to produce seamless stainless steel pipes of various sizes, large diameter, small diameter, precision, thick wall and thin wall. The products will be produced in strict accordance with ASTM A312 and AISI standards. It is one of the few manufacturers that can provide certificates such as PED, ISO, SGS, TUV, ABS.310s is one of the most widely used stainless steel varieties. The specific performance and description are as follows.

Chemical Composition about Austenitic Seamless Stainless Steel pipe
310s X8CrNi25-211.4841 15mm 10/12 inch ASTM 314

Grade	C ≤	Si ≤	Mn ≤	P ≤	S ≤	Ni ≤	Cr ≤
310S	0.08	1.5	2	0.045	0.03	19.00-22.00	24.00-26.00

Application about our product --

310s X8CrNi25-211.4841 15mm 10/12 inch ASTM 314:
chemical engineering,
petroleum
food,
nuclear power,
aerospace,
environmental protection,
boiler,
gas,
war industry,
machinery,
ship building

Some of the quality tests carried out by us includes:

Corrosion Test	Conducted only when specially requested by the client
Chemical Analysis	Test done as per required quality standards
Destructive / Mechanical Testing	Tensile | Hardness | Flattening | Flare | Flange
Reverse-bend and Re. flat tests	Carried out in full compliance with relevant standards & ASTM A-450 and A-530 norms, which ensures trouble-free expansion, welding & use at customers end
Eddy Current Testing	Done to detect homogeneities in subsurface by using Digital Flaw-mark Testing System
Hydrostatic Testing	100% Hydrostatic Testing carried out according to ASTM-A 450 norms for checking tube leakage, and biggest pressure we can support 20Mpa/7s .
Air Under Pressure Test	To check any evidence of air leakage
Visual Inspection	After passivation, every single length of tubes & pipes is subjected to thorough visual inspection by trained staff for detecting surface flaws & other imperfections

Supplementary Testing : Apart from the above mentioned tests, we also carry out on the manufactured products supplementary testing. The tests conducted under this include:
Eddy Current Testing
O.P Testing
Radiography Testing
IGC Testing
Ultrasonic testing
Liquid Penetrate testing
Corrosion Testing
Micro Testing
Macro Testing
we are also supply other steel grade material

Duplex Steel :	S32101,S32205,S31803,S32304,S32750, S32760
