90 Degree Stainless Steel Pipe Fittings Standard Hexagon Bushing Durable Connection Solutions for Industrial Applications

Our Product Introduction

for more products please visit us on stainless-steelseamlesspipe.com

Basic Information

- Place of Origin: CHINA
- Brand Name: zheheng
- Certification: ISO9001 PED
- Model Number: 5mm
- Minimum Order Quantity: 500
- Price: \$1000-3500/Ton
- Packaging Details: wooden
- Delivery Time: 5-45days
- Payment Terms: L/C, T/T
- Supply Ability: 10000+

Product Specification

- Contact Person: Mrs Summer
- Angle: 90 Degree
- Standard Or Nonstandard: Standard
- Color: Metallic Silver
- Surface: Rolling Sand
- Thread Standard: BSPT, BSPP, NPT, DIN2999
- Origin: China
- Corrosionresistance: High Resistance To Corrosion And Oxidation

Product Description

90° Stainless Steel Pipe Fittings - Hexagon Bushing

Our Stainless Steel Pipe Fittings are expertly designed to meet the highest standards of quality and durability, making them ideal for plumbing and industrial applications. Manufactured under strict adherence to standard specifications, these fittings ensure reliable performance and long-lasting service for both commercial and residential projects.

The precise 90-degree angle design facilitates smooth and efficient changes in pipe direction, maintaining system integrity and flow efficiency while reducing the risk of leaks and pressure drops in complex plumbing systems.

Product Features

Product Name: Stainless Steel Pipe Fittings

Item: Hexagon Bushing

Angle: 90 Degree

Surface Finish: Rolling Sand

Thread Standard: BSPT, BSPP, NPT, DIN2999

Contact Person: Mrs Summer

Suitable for use in Stainless Steel Tube Fittings applications

Ideal for Stainless Steel Piping Fittings systems

Compatible with Stainless Steel Pipeline Fittings installations

Technical Specifications

Parameter	Specification
Item Name	45 Degree Elbow
Angle	90 Degree
Thread Standard	BSPT, BSPP, NPT, DIN2999
Surface Treatment	Rolling Sand
Corrosion Resistance	High Resistance To Corrosion And Oxidation
Trade Terms	FOB
Contact Person	Mrs Summer
Delivery Time	15 Days (Standard)
HS Code	8203400000

Applications

These 90-degree Hexagon Bushing fittings are essential components in various industrial and commercial applications. The rolling sand surface finish provides enhanced corrosion and wear resistance, making them ideal for harsh environments.

Primary applications include fluid transport systems (water supply, chemical processing, oil and gas), HVAC systems, marine and shipbuilding industries, and residential/commercial plumbing installations.

Customization Options

We offer flexible customization options for our Stainless Steel Pipe Fittings, available in Metallic Silver color with precise 90-degree angles. Custom solutions are available for specific project requirements including dimensions, end connections, and material finishes.

For customization inquiries, please contact Mrs. Summer. All products comply with international standards (HS Code: 8203400000).

Support & Services

Comprehensive technical support includes product specification guidance, installation procedures, maintenance practices, and troubleshooting assistance. We provide certification and documentation for quality assurance, along with training sessions for engineers and technicians.

Frequently Asked Questions

Q1: What types of stainless steel pipe fittings are available?

A1: We offer a wide range including elbows, tees, reducers, caps, and flanges suitable for various piping systems.

Q2: What grades of stainless steel are used in your pipe fittings?

A2: Our fittings are primarily made from grades 304 and 316, providing excellent corrosion resistance and durability.

Q3: Are your stainless steel pipe fittings suitable for high-pressure applications?

A3: Yes, our fittings are designed to withstand high pressure and temperature conditions for industrial and commercial systems.

Q4: Can your stainless steel pipe fittings be used in food and pharmaceutical industries?

A4: Absolutely. The stainless steel used is hygienic and corrosion-resistant, meeting stringent industry standards.

Q5: What connection types are available for these fittings?

A5: We offer threaded, butt-weld, socket-weld, and flanged ends to accommodate different installation needs.
